Performance Review

SECOND QUARTER 2018

Portfolio Funding Status

- The following slides provide a review of key information pertaining to the Los Angeles City Employees' Retirement System ("LACERS") Real Estate Portfolio (the "Portfolio") through June 30, 2018. A detailed performance report is also provided as **Exhibit A**.
- The System is below its 7.0% target to Real Estate as of year-end on a funded and committed basis.
- As of April 2018, LACERS increased its real estate target to 7%. This report reflects the new target.

	Target Allocation	Tactical Range	Market Value	Market Value & Unfunded Commitments

- In May 2014, the Board approved the strategic targets displayed above in order to reflect a more conservative risk profile going-forward. At the time, the Portfolio had 30% exposure to Core and 70% exposure to Non-Core.
- Since that time, and in an effort to transition the Portfolio, the LACERS Board has approved \$220 million in Core commitments, which have all been funded to date.
- The LACERS Board approved \$95 million in Non-Core investments since 2014. These investments focused on Value Add strategies with pre-specified portfolios, embedded value and/or an element of current income.
- On a funded and committed basis, the LACERS Core and Non-Core allocations are in line with the strategic targets.
- The Core Portfolio utilizes 25.7% leverage, measured on a loan-to-value (LTV) basis, well below the 40.0% constraint.
- The Non-Core Portfolio has a 55.2% LTV ratio, well below the 75.0% constraint.

*Figures may not add due to rounding.

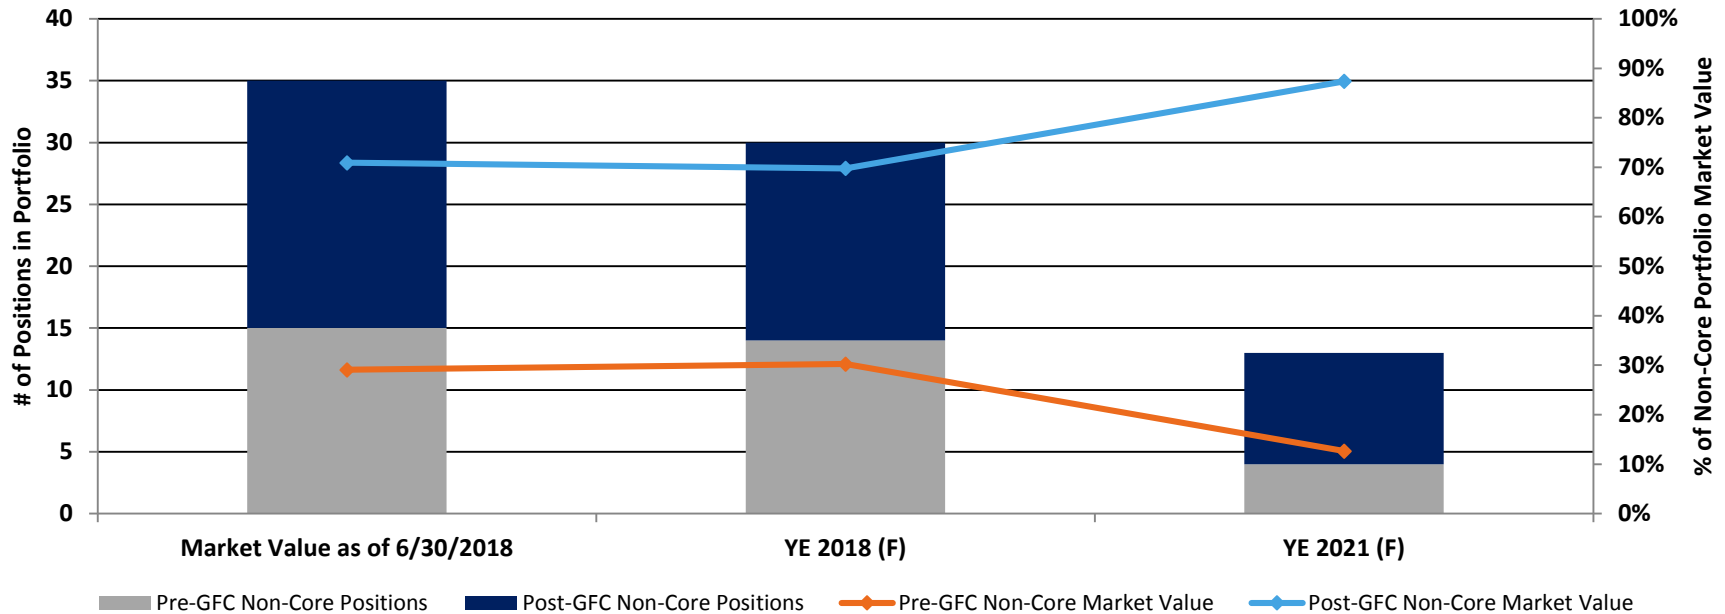

LACERS Commitment Activity – Last Five Years

- LACERS has committed \$390 million since 2013, of which \$315 million (~80%) have been Townsend-initiated activities since 2015.
- Two Non-Core commitments since 2015 (Gerrity and Asana) met LACERS Emerging Manager guidelines.
- In the Core Open-End Commingled Fund (OECF) space, there are currently no managers meeting these guidelines.
- Vintage year classifications are based on LACERS' first capital call (or expected capital call), though commitments may have been approved in prior years.

Projected Non-Core Liquidations

Non-Core Investments - Pre-GFC vs. Post-GFC Vintage Years

- 5 out of 35 Non-Core funds are projected to liquidate through year-end 2018, and 22 through year-end 2021.
- The number of Pre-Global Financial Crisis (“Pre-GFC”) Non-Core positions is also projected to decrease significantly over the next few years. Only 14 of the Non-Core investments made before the Global Financial Crisis are projected to remain through year-end 2018 (four through year-end 2021). As of 06/30/18, there are still 15 Pre-GFC Non-Core positions in the portfolio.
- The Non-Core Portfolio, which currently consists of 29.1% Pre-GFC investments on a market value basis, is projected to be made up of mostly Post-GFC investments by year-end 2021 (87.4% of projected market value).

Total Portfolio Performance

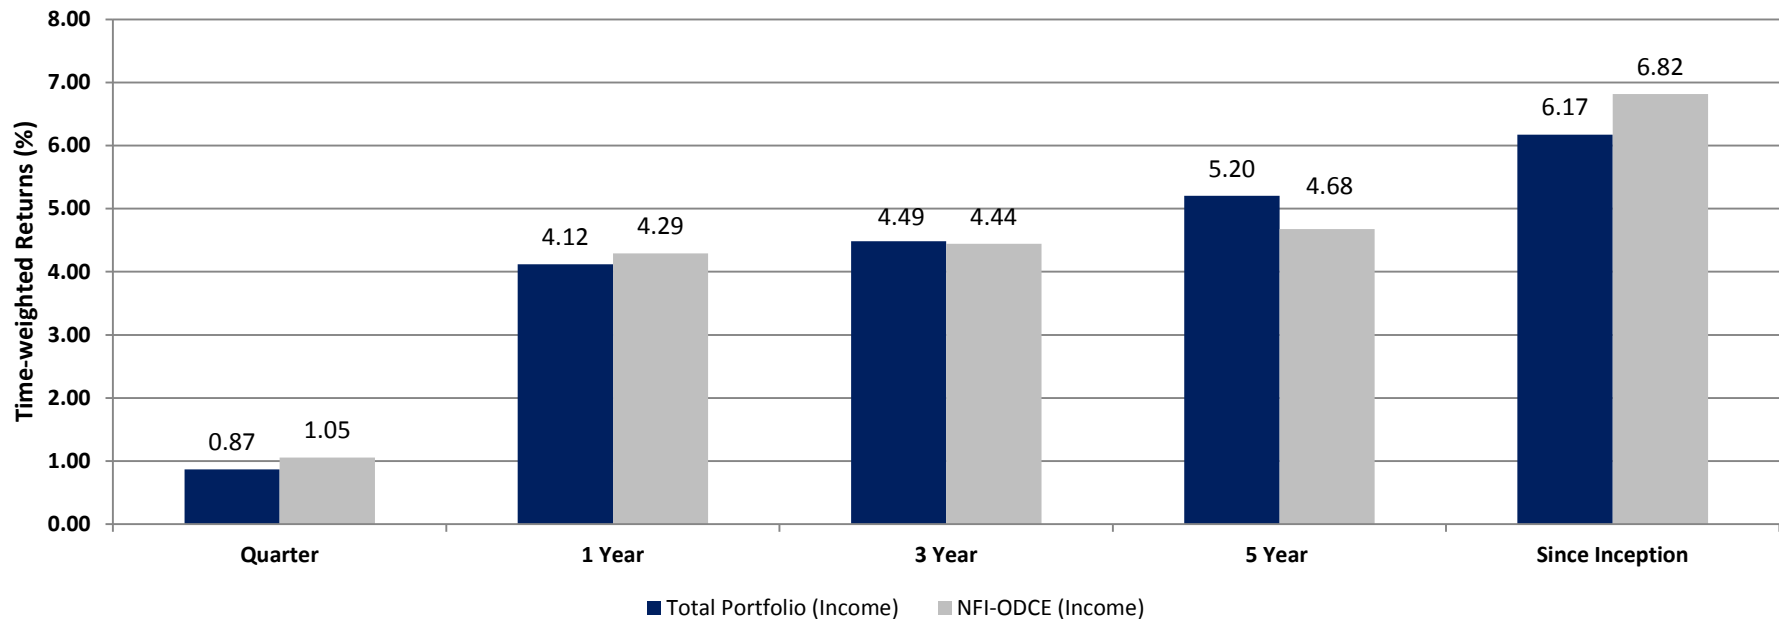

LACERS Total Real Estate Portfolio vs. NFI-ODCE + 80 bps

- The benchmark for the LACERS Total Real Estate Portfolio is the NCREIF Fund Index of Open-End Diversified Core Equity funds (NFI-ODCE) + 80 basis points (“bps”), measured over five year time periods, net of fees (defined below). LACERS has underperformed across all periods, mostly due to weak performance of Non-Core legacy funds. Improving relative performance is driven by recent investment activity.
- When the LACERS benchmark was restructured in 2014, Townsend advised the Board that it could take up to five years for outperformance to begin, given the heavy concentration in Non-Core legacy funds that were expected to underperform until liquidation.
- The NFI-ODCE is a Core index that includes Core open-end diversified funds with at least 95% of their investments in US markets. The NFI-ODCE is the first of the NCREIF Fund Database products, created in May 2005, and is an index of investment returns reporting on both a historical (back to 1978) and current basis (25 active vehicles), utilizing approximately 21.1% leverage.
- The 80 basis point (“bps”) premium is a reflection of the incremental return expected from Non-Core exposure in the Portfolio, which is not included in the NFI-ODCE.

Total Portfolio Income Performance

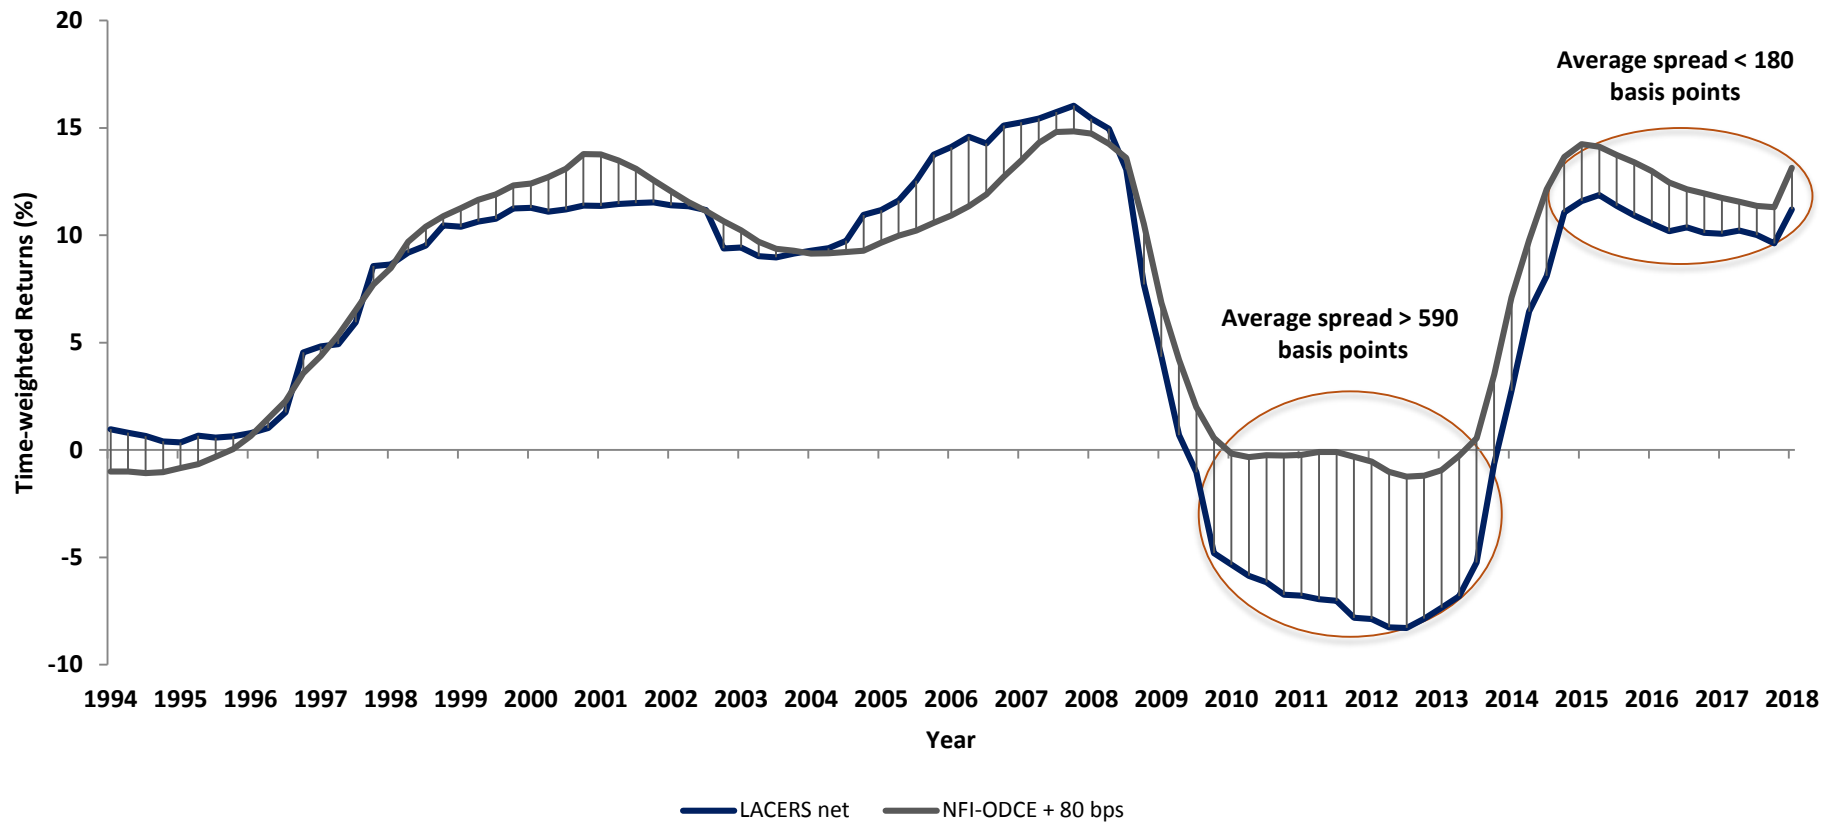

LACERS Income Return vs. NFI-ODCE

- As outlined in the Real Estate Strategic Plan, a primary objective for real estate is to generate income for the LACERS program.
- Historically, real estate has generated returns comprised primarily of income.
- The income return for the LACERS Portfolio has performed in line with or above the income return of the NFI-ODCE over the 3 and 5-year periods, and has underperformed over the quarter, 1-year and since inception periods. Recent underperformance on an income basis is attributable to poor absolute income performance in the Opportunistic portfolio.

Improving Relative Total Portfolio Performance

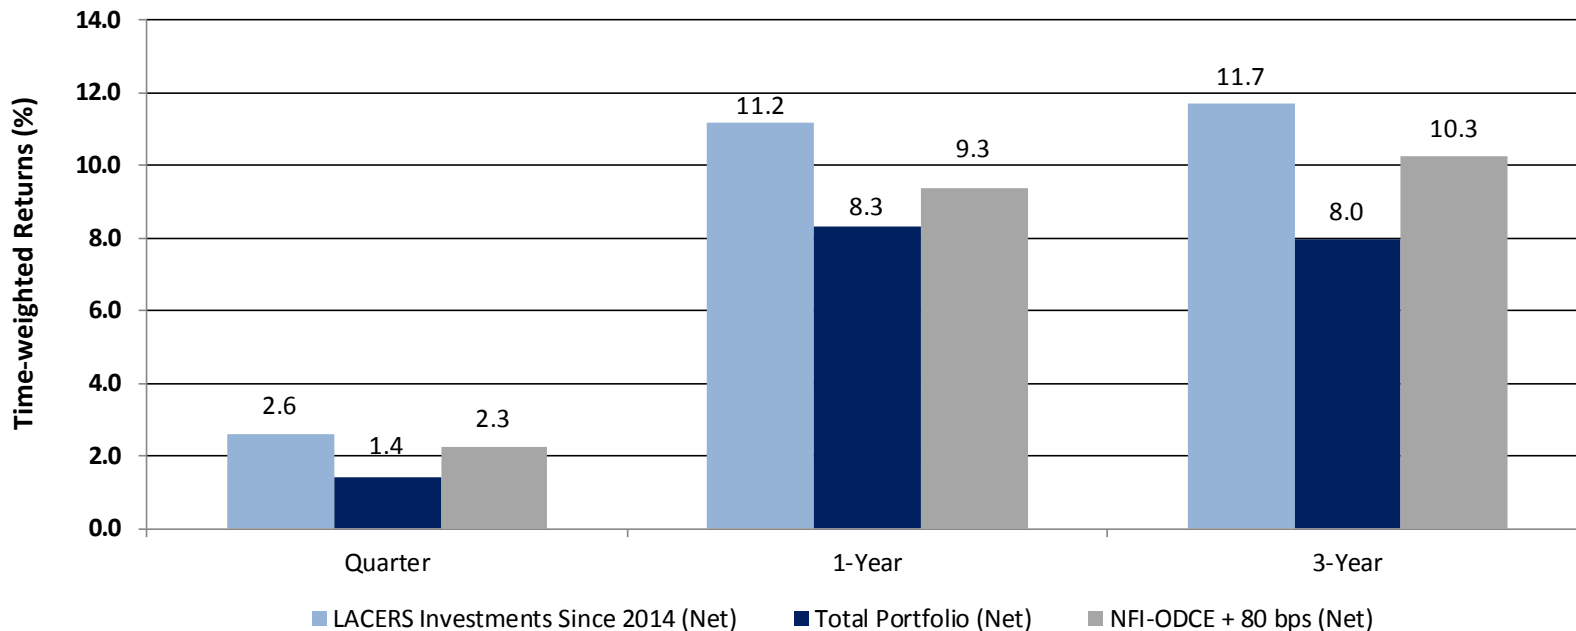

LACERS Rolling Five Year Net Returns vs. NFI-ODCE + 80 bps

- The chart above displays rolling five-year time-weighted returns for the Total LACERS Portfolio, net of fees, relative to the benchmark.
- While LACERS continues to underperform the benchmark on a rolling five-year basis, performance should improve as accretive investments approved since 2014 continue to fund into the Portfolio and legacy investments fully liquidate. The number of positions in the Portfolio is projected to decline by roughly 10% through year-end 2018.
- Townsend also analyzed this performance trend by strategy within the LACERS Portfolio. The same trend existed by strategy but Core holdings tracked the benchmark closer than Non-Core strategies.

Post-GFC Investments Accretive to Performance

LACERS Investments Since 2014 vs. Total Real Estate Portfolio vs. NFI-ODCE + 80 bps

- Since 2014, Townsend has recommended ten investments to LACERS staff and nine (including two emerging managers) ultimately were brought forth for Board recommendation. The first of these investments to call capital was Jamestown Premier Property Fund in 3Q15. Core investments include Berkshire, Jamestown, Lion Industrial Trust, Prime, and Principal. Non-Core investments include Gerrity, Standard Life, Asana, and Heitman Asia.
- Performance of Townsend-advised investments since 2014 exceeds performance of the Total Portfolio and the benchmark over the trailing quarter, 1-year and 3-year periods. These investments are expected to drive performance going forward.

Relative Performance by Strategy: Core

- The LACERS Core benchmark is the NFI-ODCE, measured over five year time periods, net of fees.
- The Core Portfolio outperformed the benchmark over the most recent year, but underperformed across all other time periods.
- Principal U.S Property Account and Lion Industrial Trust were the largest contributors to Core performance over the Quarter, outperforming the NFI-ODCE by 22 bps and 211 bps respectively.
- Berkshire, CMCT, CIM VI, Prime Property Fund, JPM SPF and Invesco Core Real Estate lagged the NFI-ODCE, with underperformance ranging from 19 to 85 bps.
- Over the trailing year, outperformance was driven by strong returns of Lion Industrial Trust and Jamestown Premier Property Fund, which outperformed the NFI-ODCE by 550 basis points and 680 basis points respectively.

Relative Performance by Strategy: Non-Core

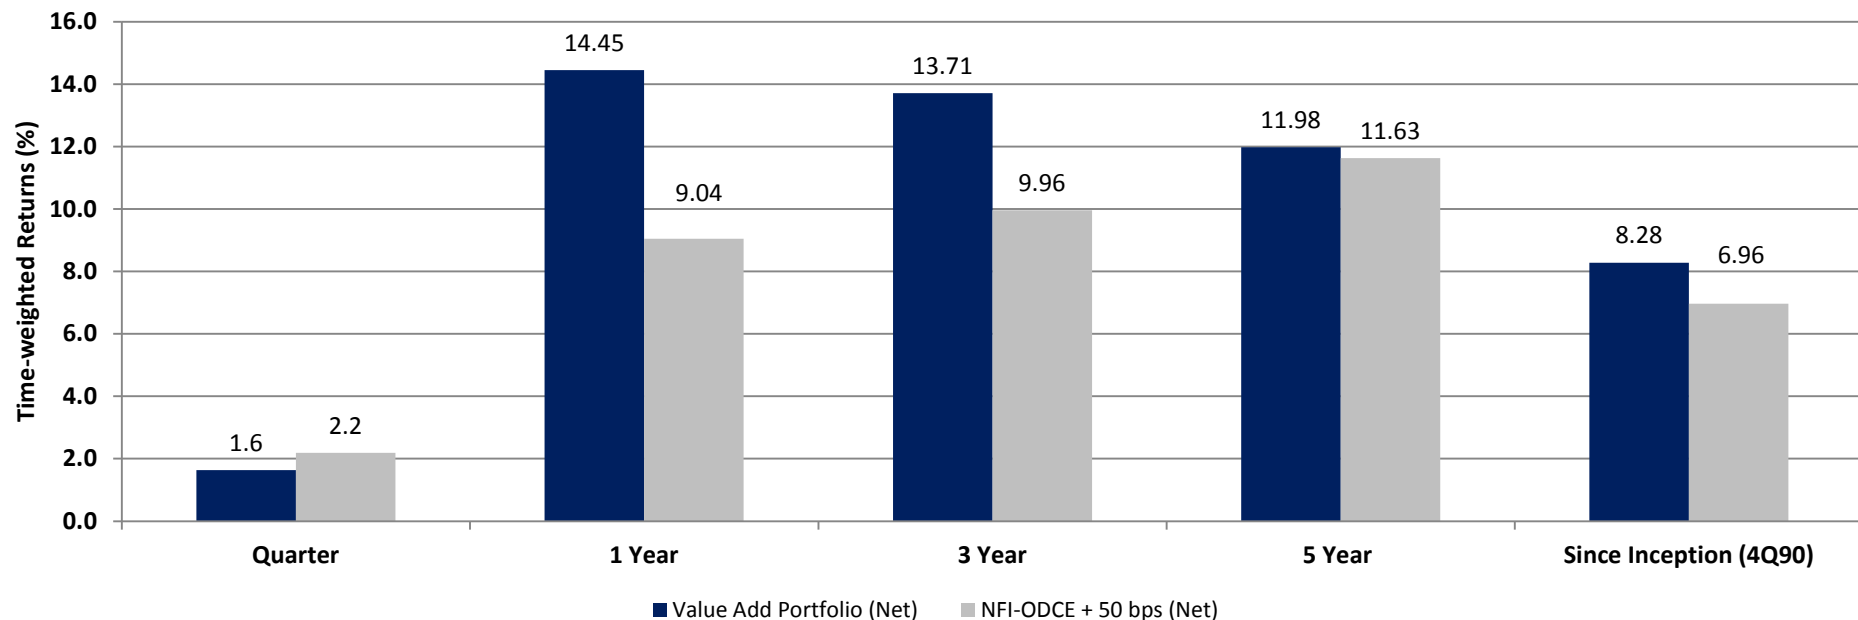

LACERS Non-Core Real Estate Portfolio vs. NFI-ODCE + 200 bps

- The LACERS Non-Core benchmark is the NFI-ODCE + 200 bps, measured over five-year time periods, net of fees. The 200 bps premium is a reflection of the incremental return expected from additional risk inherent in Non-Core strategies.
- The Non-Core Portfolio underperformed the NFI-ODCE + 200 bps benchmark over all periods. Underperformance over longer time periods is mostly due to Non-Core legacy funds that are due to liquidate over the next few years. As discussed on page 5, there are currently 15 Non-Core funds in the portfolio that were committed to before the Global Financial Crisis. As these funds liquidate and approved investments are funded, Non-Core portfolio performance is expected to improve.
- The Value Add Portfolio has achieved strong absolute and relative annualized returns, while the Opportunistic Portfolio has been the main reason for Non-Core underperformance. Both are discussed in more detail on the following pages.

Relative Performance by Strategy: Non-Core — Value Add

LACERS Value Add Real Estate Portfolio vs. NFI-ODCE + 50 basis points

- The LACERS Value Add benchmark is the NFI-ODCE + 50 bps, measured over five-year time periods, net of fees. The 50 bps premium is a reflection of the incremental return expected from additional risk inherent in Value Add strategies
- The Value Add Portfolio outperformed the NFI-ODCE + 50 bps benchmark over all periods except the recent quarter, with significant outperformance over the 1-year and 3-year periods.
- DRA Growth and Income Fund VII, which outperformed its benchmark by 1051 bps over the Quarter, was the strongest driver of performance. This was followed by Asana Partners Fund I, which outperformed its benchmark by 190 basis points.
- Over the trailing year, six out of eight Value Add investments outperformed the benchmark.

Relative Performance by Strategy: Non-Core — Opportunistic

LACERS Opportunistic Portfolio vs. NFI-ODCE + 300 bps

- The LACERS Opportunistic benchmark is the NFI-ODCE + 300 bps, measured over five-year time periods, net of fees. The 300 bps premium is a reflection of the incremental return expected from additional risk inherent in Opportunistic strategies.
- The Non-Core Portfolio underperformed the NFI-ODCE + 300 bps benchmark across all time periods. Underperformance over long time periods is mostly due to legacy funds that are due to liquidate over the next few years.
- There are currently 15 Opportunistic funds in the portfolio that were committed to before the Global Financial Crisis. As these funds liquidate and approved investments are funded Opportunistic portfolio performance is expected to improve.
- The only two outperforming Opportunistic funds over the trailing year are Bristol Value II (330 basis points above benchmark) and Torchlight Debt Opportunity Fund IV (210 basis points).

Relative Performance by Strategy: Timber

LACERS Timber Portfolio vs. NCREIF Timberland Index

- The Timber Portfolio, net of fees, underperformed its benchmark, the NCREIF Timberland Index, gross of fees, all periods except the since-inception time period.
- Outperformance over the long-term is mostly related to strong performance of Hancock ForesTree V, which was fully liquidated by year-end 2015.
- The LACERS active timberland investment is Hancock Timberland IX. The Fund's assets are located in the United States (85%, split between the South and the Northwest) and Chile (15%). The Northwest region was the strongest performing region in the NCREIF Timberland Index over the Quarter.
- Income returns for timber investments tend to be infrequent and are realized through harvest. To date, there has been no meaningful income from the fund due to limited harvest activity during a period of lower timber prices. This has impacted total returns.
- Further, all assets in Hancock Timberland IX are appraised at year-end, which is why appreciation usually remains relatively flat from the First Quarter through the Third Quarter of each year. The effect of year-end appraisals is demonstrated in the annualized returns.

Real Estate Portfolio Diversification

Private Real Estate Portfolio (Ex. Timber) - Property Type Diversification
2Q18 vs. Projected Year-End 2020 Exposure

- The diversification of the Private Portfolio is measured against the diversification of the NFI-ODCE $\pm 10.0\%$ with up to 20.0% of the Portfolio allowed in "Other". Currently, the "Other" category includes investments in alternative property types including Self Storage, Student Housing, Senior Housing, For Sale Residential, and Land.

Real Estate Portfolio Diversification

Private Real Estate Portfolio (Ex. Timber) – Geographic Diversification
2Q18 vs. Projected Year-End 2020 Exposure

- The diversification goal of the Private Portfolio is to be well diversified across the US. The only constraint is a 30.0% maximum allocation to Ex-US investments. NFI-ODCE diversification is provided as a benchmark.
- The LACERS Projected Private Portfolio (YE 2020) includes all commitments approved by the Board.
- The Portfolio currently has an aggregate exposure to the Los Angeles metropolitan area of 7.9%, with a 4.1% exposure to Los Angeles City. The NFI-ODCE’s exposure to the Los Angeles metropolitan area is 9.7%*.
- The 5.3% Ex-US exposure can be broken out into Europe (3.1%), Asia (1.5%), and Emerging Americas (0.8%).

Benchmarks

The potential universe of available real asset benchmarks are infinite. Any one benchmark, or combination thereof, may be utilized on a gross or net of fees basis with or without basis point premiums attached. These benchmarks may also utilize a blended composition with varying weighting methodologies, including market weighted and static weighted approaches.

Footnotes to Returns (2) Tab

¹ 'Broken' TWR – In a series of quarterly returns for an investment line item, a single quarter of significant volatility and/or temporary negative market value will 'break' the time weighted calculation and period returns (including since inception) must start anew in a subsequent quarter. Depending upon the timing of the break, TWRs may never accurately reflect performance of the investment line item. Line item data continues to be reflected in the sub-portfolio and portfolio totals, however for the individual line item, the internal rate of return ("IRR") becomes a more appropriate data point for evaluation.

- The S&P 500 produced a gross total return of 3.4% during the Quarter, as markets rebounded from tightening monetary policy and trade war rhetoric on the back of strong economic data. The MSCI US REIT index produced a return of 10.1%. REITs outperformed the broader equities market for the Quarter, but continue to lag by 10.8% over the TTM period. Consumer Sentiment declined slightly during the Quarter to 98.2.

SUBJECT: INVESTMENT MANAGER CONTRACT WITH AEGON USA INVESTMENT MANAGEMENT, LLC REGARDING THE MANAGEMENT OF AN ACTIVE U.S. HIGH YIELD FIXED INCOME PORTFOLIO AND POSSIBLE BOARD ACTION

Recommendation

That the Board approve a one-year contract extension with Aegon USA Investment Management, LLC for management of an active U.S. high yield fixed income portfolio; and, authorize the General Manager to approve and execute the necessary documents, subject to satisfactory business and legal terms.

Discussion

On December 11, 2018, the Committee considered the attached staff report (Attachment A) recommending a one-year contract extension with Aegon USA Investment Management, LLC (AUIM). The firm has managed an active U.S. high yield fixed income portfolio for LACERS since June 2013, and the current contract expires on March 31, 2019. The Committee discussed performance, fees, and AUIM's "On-Watch" status pursuant to the LACERS Manager Monitoring Policy. The Committee recommends a one-year contract extension in light of AUIM's improving business culture since the initiation of the "On-Watch" period.

Strategic Plan Impact Statement

A contract extension with Aegon USA Investment Management, LLC will allow the fund to maintain a diversified exposure to the U.S. high yield fixed income market, which is expected to help achieve satisfactory long-term risk adjusted investment returns (Goal IV). The discussion of the investment manager's profile, strategy, performance, and management fee structure are consistent with Goal V (uphold good governance practices which affirm transparency, accountability, and fiduciary duty).

ITEM: **VI**

SUBJECT: INVESTMENT MANAGER CONTRACT WITH AEGON USA INVESTMENT MANAGEMENT, LLC REGARDING THE MANAGEMENT OF AN ACTIVE U.S. HIGH YIELD FIXED INCOME PORTFOLIO AND POSSIBLE COMMITTEE ACTION

Recommendation

That the Committee recommend to the Board a one-year contract extension with Aegon USA Investment Management, LLC for the management of an active U.S. high yield fixed income portfolio.

Discussion

Background

The Board hired Aegon USA Investment Management, LLC (AUIM) in June 2013 to manage an active U.S. high yield fixed income portfolio benchmarked against the Bloomberg Barclays U.S. Corporate High Yield 2% Capped Index. AUIM employs a fundamental research-based investing strategy that is guided by the macroeconomic environment. The investment process consists of three steps: 1) analysis of global macroeconomics, interest rates, and asset allocation; 2) credit research and security selection; and 3) portfolio construction. Investment risks are monitored and reviewed throughout the process. The strategy is managed by a team of four portfolio managers led by Jim Schaeffer, Head of U.S. Leveraged Finance. LACERS' portfolio was valued at \$381 million as of October 31, 2018. Approximately \$185 million of these funds came from high yield fixed income assets previously managed by Franklin Advisors, Inc. The current contract expires on March 31, 2019.

On October 23, 2018, the Board approved both high yield fixed income and hybrid high yield/bank loan investment manager searches to provide appropriate diversification and enhanced performance to these particular segments of the Credit Opportunities asset class. These searches are expected to launch in early 2019.

Organization

AUIM has 314 employees and is headquartered in Cedar Rapids, Iowa, with a satellite office in Chicago, Illinois. The firm is a subsidiary of Aegon Asset Management, the global investment management arm of Aegon N.V., a multinational insurance and financial services company. As of October 31, 2018, AUIM had \$98 billion of total assets under management, with \$7.5 billion of assets under management in the U.S. high yield fixed income strategy.

Due Diligence

AUIM's investment philosophy, strategy, and process have not changed since the inception of the contract in 2013. Due to a regulatory agency investigation, AUIM was placed on "On Watch" status on October 5, 2017, for an initial one-year period pursuant to the LACERS Manager Monitoring Policy (Policy). Specifically, AUIM and several affiliated companies were investigated by the Securities and Exchange Commission for compliance issues with certain mutual funds occurring between July 2011 and June 2015. These mutual funds were unrelated to the high yield fixed income strategy and LACERS' investment. During the one-year watch period, staff conducted quarterly conference calls, meetings in LACERS offices, and on-site due diligence. The regulatory investigation was settled satisfactorily in August 2018. Gary Black, hired as AUIM's Chief Executive Officer in 2016 (subsequent to the mutual fund issues), has prioritized transparency and building critical functional areas such as compliance to mitigate organizational risks. Staff and NEPC, LLC (NEPC), LACERS' General Fund Consultant, verified these claims during an on-site due diligence inspection conducted in October 2018. Despite staff's satisfactory assessment of the firm, staff and NEPC will retain AUIM on "On Watch" status for an additional one-year period to evaluate improvements in the business culture.

Performance

As of October 31, 2018, AUIM's performance since inception has been nearly flat compared with the performance of its benchmark. AUIM is in compliance with the performance criteria of the Policy.

Calendar year performance is presented in the table below as supplemental information.

% of Excess Return	-0.32	0.35	-1.72	0.49	1.64

Fees

LACERS pays AUIM an effective fee of 37.8 basis points (0.38%), which is approximately \$1.5 million annually based on the value of LACERS' assets as of October 31, 2018. The fee ranks in the 19th percentile of fees charged by similar managers in the space (i.e., 81% of like-managers have higher fees).

General Fund Consultant Opinion

NEPC concurs with this recommendation.

Strategic Plan Impact Statement

A contract renewal with Aegon USA Investment Management, LLC will allow the fund to maintain a diversified exposure to the U.S. high yield fixed income market, which is expected to help achieve satisfactory long-term risk adjusted investment returns (Goal IV). The discussion of the investment manager's profile, strategy, performance, and management fee structure are consistent with Goal V (uphold good governance practices which affirm transparency, accountability, and fiduciary duty).

From: NEPC, LLC

Date: December 11, 2018

Subject: Aegon USA Investment Management, LLC – Contract Extension

Recommendation

NEPC recommends Los Angeles City Employees' Retirement System (LACERS) extend the contract that is currently in place with Aegon USA Investment Management, LLC ('Aegon') for a period of one year from the date of contract expiry.

Background

Aegon was hired into the Credit Opportunities asset class on June 20, 2013 to provide the Plan with U.S. non-investment grade public markets fixed income (high yield) exposure. The portfolio's strategy is benchmarked against the Barclays Capital U.S. High Yield 2% Issuer Cap Index.

As of September 30, 2018, Aegon managed \$389.9 million, or 2.2% of Plan assets in a High Yield Fixed Income separately managed account with an asset-based fee of 0.38% (37.8 basis points) annually. This fee ranks in the 19th percentile among its peers in the eVestment U.S. High Yield Fixed Income Universe. In other words, 81% of the 204 high yield fixed income products included in the peer universe have a higher fee than the LACERS account. The performance objective is to outperform the Bloomberg Barclays U.S. High Yield 2% Issuer Cap Index by at least 0.50%, net of fees, annualized over a full market cycle (normally three-to-five years). The Aegon account is currently under 'Watch' status according to LACERS' manager monitoring policy due to being investigated by the SEC. The firm ultimately settled with the SEC in August 2018 and over the past three years has hired seven new personnel in their compliance department and updated policies, procedures and monitoring of pre/post trades. The firm also appointed a new CEO, Gary Black, in 2016.

Aegon Asset Management US is a wholly owned subsidiary of Aegon N.V. which is a public company listed on the Euronext Amsterdam (stock exchange) and New York Stock Exchange. Aegon N.V. is an international life insurance, pension and asset management group headquartered in the Netherlands operating in over 20 countries throughout Europe, Asia and the Americas with brands such as Transamerica, Aegon and Blue Square Reinsurance under its umbrella. Aegon Asset Management US primarily manages active fixed income portfolios and has 85 accounts, \$99.3 billion in assets under management ('AUM') and 314 employees; 76 employees are investment professionals. A majority of the firm's AUM is made up of insurance assets (75%) and sub-advised business (22%); Public Funds assets make up 1.2% of total AUM. The firm's High Yield Fixed Income product has approximately \$7.72 billion in total assets under management with 20 accounts in total; 15 accounts are taxable clients with 5 accounts being tax-exempt (public fund and foundation/endowment).

The LACERS High Yield Fixed Income portfolio is co-managed by four portfolio managers; Jim Schaeffer, Deputy CIO/ Co-Head of Fixed Income, Kevin Bakker and Ben Miller, Co-Heads of High Yield and Derek Thoms, High Yield Portfolio Manager. Mr. Schaeffer has been with Aegon since 2004 and is responsible for top-down portfolio themes, risk positioning and process oversight. Messrs. Bakker, Miller and Thoms are responsible for day-to-day portfolio management and have been in the role for 11, 12 and three years respectively. The portfolio management team is supported by 18 credit research analysts, five distressed debt analysts as well as 14 additional personnel covering other segments of the credit landscape in emerging markets (8 analysts), bank loans (2 analysts) and top-down strategy (4 analysts). The team has been relatively stable since Bradley Beman, CIO/ Director of High Yield left the firm in January 2015.

The team seeks to achieve their outperformance target primarily through issue selection informed by top-down macro insights and has a philosophical view that unexpected changes in the business cycle can create investment opportunities. Broad diversification is used to mitigate individual credit risk and aids in managing liquidity risk across industries and credit quality tiers. Typically, the portfolio will hold 125-175 issuers.

The portfolio construction process incorporates the portfolio management and research teams collaboratively to assess the relative attractiveness of names entering the portfolio. Quantitative and qualitative factors are aggregated and tested against valuation, technical metrics and investor sentiment. Sector and industry allocations are informed by the bottom-up top-down process with the portfolio's benchmark being viewed as a jumping-off point rather than a blueprint. The process results in a portfolio that can vary significantly from benchmark characteristics and historically has resulted in the ability to tactically position the portfolio defensively when warranted as well as being able to dial-up the risk profile as the process uncovers opportunities.

Performance

Referring to Exhibit 1, since inception of the High Yield Fixed Income portfolio on July 1, 2013, the strategy has underperformed the Bloomberg Barclays U.S. High Yield 2% Issuer Cap Index by 0.01%, returning 5.72%, net of fees. The portfolio ranked in the 22nd percentile in its peer universe since July 1, 2013. The information ratio was -0.01 and active risk, as measured by tracking error was 1.06%. In the one-year period ended September 30, 2018, the portfolio underperformed the index by 0.18% and ranked 41st in its peer universe. Underperformance in the trailing one-year was driven by security selection within BB and B rated credits as well as exposures in Energy, Technology and Basic Industry. The portfolio also had a higher quality (lower risk) bias with exposure to off-index investment-grade credit (4.4%) and underweights to CCC credits.

Since July 1, 2013, referring to Exhibit 2, much of the historical underperformance is a result of negative relative performance in the second quarter of 2016, where exposure to Energy issues resulted in a near two percent relative drawdown.

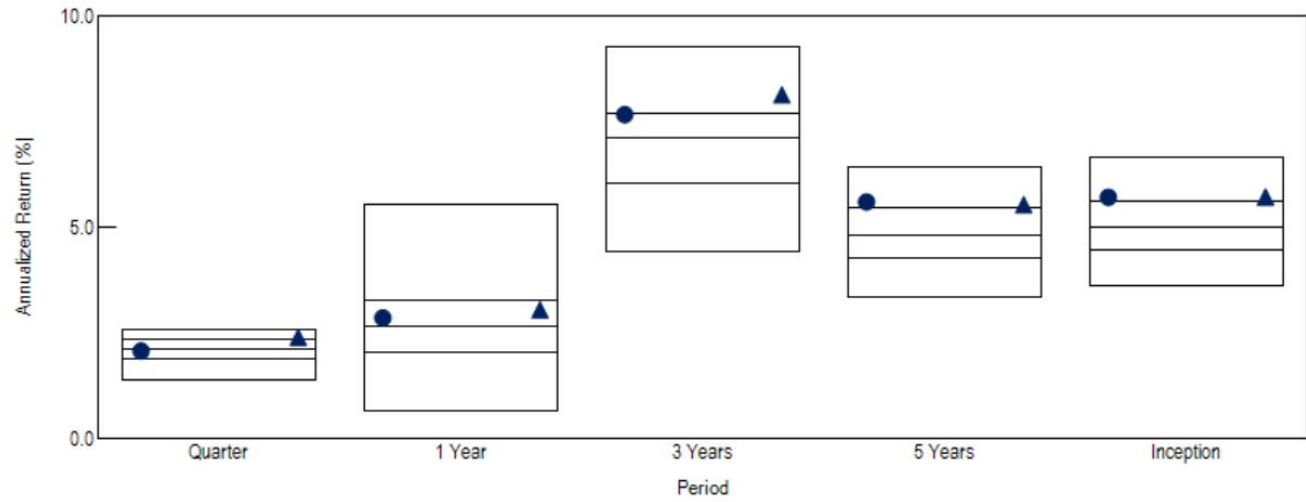

**Conclusion**

Aegon has performed substantially flat against its benchmark since July 1, 2013. The firm settled a SEC investigation and reorganized many processes related to the firm's risk, compliance, marketing, product development, audit and legal functions. The firm's personnel, investment strategy and investment results provide NEPC with confidence that the high yield team at Aegon may be able to reproduce these results going forward. NEPC recommends a contract extension for a period of one year from the period of contract expiry.
