Advisory Mandate Timeline

Advisory Mandate Timeline

- Portfolio Advisors was awarded the mandate to advise LACERS on its Private Equity Program
 in December 2013. Staff communicated that Portfolio Advisors had been selected because
 the Board and Staff felt that PA would provide a more customized approach to investing in
 the asset class and access to sponsors raising smaller, difficult to access funds with higher
 return potential, as well as maintain existing relationships with top tier sponsors
- Since December, the following events have occurred:
 - January 2014 Three year contract signed
 - January thru April 2014 Historical cash flow and company/portfolio detail on 173 funds was sourced, reconciled with GP records and loaded into Portfolio Advisors' proprietary portfolio management system trade-named PRIVILEGe
 - Continue to source, load and monitor on-going cash flow and company/portfolio detail related to existing and new funds
 - April 2014 Commitment Pacing Study performed and Strategic Plan completed
 - April 22, 2014 Portfolio Advisors presents to LACERS Board a review of the Private Equity Program and Strategic Plan
 - July 2014 Provided Staff with: 1) PRIVILEGe demonstration and training; 2) first quarterly report utilizing customized reporting format; 3) commentary/edits on Alternative Investment Policy
 - August 12, 2014 Portfolio Advisors presents to LACERS Board a review of YTD 2014 Private Equity Commitments
 - January 13 & June 23, 2015 Portfolio Advisors presents to LACERS Board a performance review of the Private Equity
 Program and Strategic Plan update
 - January 2014 thru November 2015 Portfolio Advisors reviewed and approved with Staff commitments to 36 funds totaling
 \$695 million on behalf of LACERS

Portfolio Performance Review As of June 30, 2015

Highlights

Portfolio

- Aggregate Portfolio is comprised of \$3,367.4 million of commitments to 201 partnerships managed by 104 different sponsors since inception
 - During the first half of 2015, \$195 million of commitments to 10 new partnerships were added to the Aggregate Portfolio
 - \$350 million of commitments to 18 new partnerships were added during 2014 (targeted \$325 to \$350 million of commitments during 2014). This compares to \$325 million of commitments to 12 new partnerships added during 2013 and \$166 million of commitments to 7 new partnerships added during 2012
 - Increase in 2013 and 2014 commitment pace reflects the increase in the Private Equity Exposure Target to 12% from 9% (9.8% of total Plan assets as of June 30, 2015)

Performance

- Aggregate Portfolio, led by the performance of the Core Portfolio, was generating a net IRR since inception of 11.3% and a 1.51x total return multiple on invested capital
- From a one-, three-, and five-year perspective, LACERS' Aggregate Portfolio lagged the cash flow weighted Russell 3000 Index +300 bps benchmark as a result of strong stock market performance over the last few years. However, the more relevant ten-year and net IRR since inception have outperformed the benchmark by 80 bps and 110 bps, respectively

Diversification

 Aggregate Portfolio is well diversified across geographies, sectors and vintage years and has exposure to multiple industries and over 2,000 companies

Cash Flows

 Similar to 2011, 2012, 2013 and 2014, distributions continued to outpace contributions (positive net cash flow) through the first half of 2015

Aggregate Portfolio Summary

• In early 2012, LACERS increased its private equity exposure target from 9% to 12%. As of June 30, 2015, the Aggregate Portfolio's ARV¹ was \$1,383.0 million, approximately 9.8% of total Plan assets

Comparative Returns

From a 1-, 3-, and 5-year perspective, LACERS' Aggregate Portfolio lagged the Russell 3000 Index +300 bps benchmark¹. However, the more relevant ten-year and ITD net IRRs² have outperformed the benchmark by 80 bps and 110 bps, respectively

¹⁾ With the exception of the hypothetical final cash flow, the cash weighted return for the Russell 3000 + 300 bps index assumes the same inception to date net cash flow stream that was used in calculating the returns for the Aggregate Portfolio. The hypothetical final cash flow/valuation at 6/30/2015 reflects the amount of appreciation or depreciation that the index experienced from inception to date

^{2) &}quot;ITD Net IRR": Inception-to-Date Net Internal Rate of Return as of 6/30/2015

^{3) 1-, 3-, 5-} and 10- year IRRs ("Across Period" returns) are calculated using the previous periods ending value as the calculations' initial cash inflow. The across period IRR represents the implied discount rate that will make the net present value of the stream of cash flows sum to zero

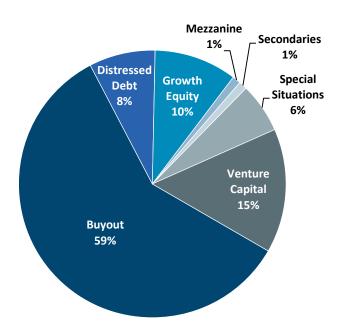

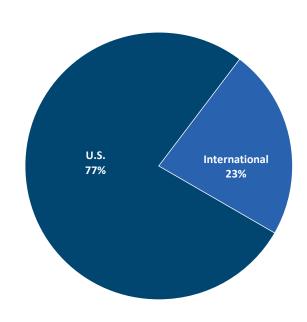

Portfolio Diversification

 Aggregate Portfolio is well diversified across geographies, sectors and vintage years and has exposure to multiple industries and over 2,000 companies

All Charts are based on Reported Value¹

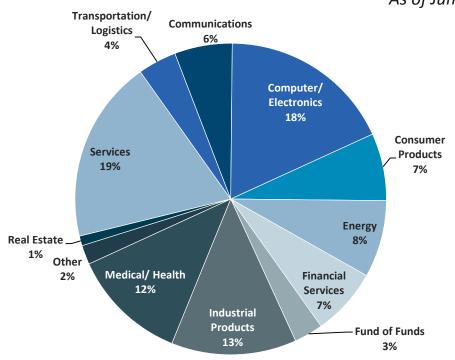

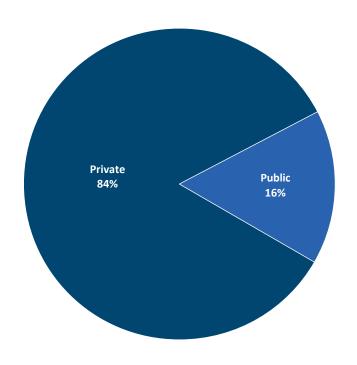

Portfolio Diversification (continued)

 Aggregate Portfolio is well diversified by industry and has approximately 84% exposure to private companies with the balance in public companies

Aggregate Portfolio Cash Flow Summary

- Cumulative contributions and distributions totaled \$2,486.6 million and \$2,373.8 million, respectively
- Aggregate Portfolio's total value is \$3,756.8 million as of June 30, 2015

Annual Net Cash Flow Summary

- 2014 marked the fourth consecutive year in which the Aggregate Portfolio's distributions outpaced contributions (positive net cash flow)
 - H1 2015 appears to be trending in the same direction
- With the increase in the exposure target and commitment pace in 2013, 2014, and 2015, it is likely that the Portfolio will revert to a negative net cash flow profile in the next three years
